

NEW CALL & FINAL EVALUATION

New Innovative Ideas Entering IDEA

Out of the 87 Applications Received

22 New Innovative Ideas Were Presented

All new ideas presented by the 22 finalist teams were very exciting and indicative of the new era of innovation and entrepreneurship that is growing in Cyprus. The committee had the very difficult task to pick the **final teams** that have been accepted in IDEA for the 3rd Cycle. We are happy to see that every year IDEA receives an increased number of applications. The final stage evaluation took place on the 2nd of April, with an evaluation committee comprising of nine members, both from the IDEA environment and industry experts.

Presenting the New 8 Teams On Board

8 promising teams have been selected through a long and methodical process, focused not only on best ideas, but on team members as well – passion and commitment were the keys.

We welcome on board:

Kyamos

Commercial multi-physics software that will be readily available to the academics/researchers.

Hegemonic Project

A board game that will allow people to learn politics through entertainment.

GenuIN

Online platform for users to buy and sell authentic, traditional, unique products from production to consumption.

LEMON LABS

Manufacturing lightweight, portable and high-resolution aerosol- particle- size spectrometer.

H.R.P.

HR platform aiming to automate scanning of traditional CVs and then automating selection of applicants according to criteria set by employer.

Nutribar

Providing a platform that allows clients to customize nutritional and healthy meals, which are then delivered to them at their work or residence.

TEEMBLY

A platform that brings people together to do activities they love. Teemby focuses on sports, indoors and outdoors activities.

SAFE

App to create easy and fast accessibility for people with disabilities.

Accelerator Training

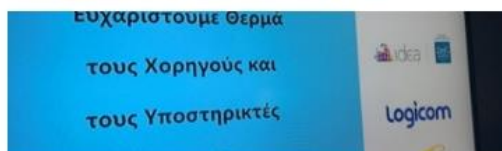

IDEA provides training in the form of workshops to the team members during the accelerator stages with regular classes 2-3 times per week, afternoon hours, 3 hours per session. The training consists of short workshops on startup creation and growth related topics which cover all aspects of the creation and development of a sustainable venture with a global outlook. Among others, the core subjects are communication & pitching, business model and business plan formulation, digital marketing, sales and branding, metrics, business ethics, team building and HR.

Award of Nestfold from “Οργάνωση Νέων Επιστημόνων”

Nestfold received an award by the 'Οργάνωση Νέων Επιστημόνων', granted by the President of the Republic of Cyprus, Mr. Nikos Anastasiades. IDEA was an honorary guest of Nestfold, as along with the Bank of Cyprus, it has provided tangible help for their trip to NASA. We are very excited to see incredible Nestfold climb the ladder of success.

TEPAK / CUT Elevator Pitch Competition

IDEA was invited to join a panel of experts and act as a judge at the Pitch competition that took place at the Cyprus University of Technology. An exciting experience to be among a vibrant and enthusiastic group of young, inspirational students.

Visit From Bank of Cyprus Officers

IDEA had the pleasure to welcome officers from the Bank of Cyprus. The teams and management took the opportunity to explain what IDEA is all about, and describe their startups and their products and services. We are happy that more and more people are getting familiar with IDEA, as it helps spread its vision.

Other Initiatives

The CCCI in collaboration with Top Kinisis Conferences & Events and the Cyprus Russian Business Association organised the 1st Money Conference "Building the Right Investment Portfolio". The conference covered areas such as wealth management, bonds, real estate, venture capital, startup companies, diamonds and art.
