

CLOSING OF THE 4TH CYCLE OF APPLICATIONS

An unprecedented number of applicants applied to IDEA's 4th cycle. 124 aspiring teams reached out to us, daring to step forward and pursue the turning of their idea into a real business. This makes us greatly optimistic about the future of the Cypriot innovation & entrepreneurship level!

THE MINISTER OF COMMUNICATIONS, TRANSPORT & WORKS AT IDEA

It was a great honour to host the Minister of Transport, Communications and Works and her delegation! Mrs Vassiliki Anastassiadou visited IDEA's premises, showed great interest in the way we work and met our teams. Some of our startups had the privilege to present their business to her and to receive valuable feedback. It was so motivational to see the passion and aspiration of the Minister, for innovation and entrepreneurship. We even further discussed ways to work together towards the common goal: Elevate Cyprus higher on the innovation map!

IDEA AT EUC CAREER EXHIBITION 2019

IDEA, continuing its actions to change the Cypriot society's mindset towards entrepreneurship, had its own booth at the 20th Career Exhibition at European University Cyprus. It was encouraging to see so many young people dropping by as it is a sign that the economic future of Cyprus is bright! IDEA is here to show that entrepreneurship can be an alternative career path.

THE ACCELERATION TRAINING BEGINS

Fresh blood at IDEA! Our premises are full of new life again!!! We welcomed warmly our new 2019 teams!!! Looking forward to achieving great things together!!! The journey has begun...

IDEA SUPPORTING THE "STUDENT INNOVATORS 2019" COMPETITION

In our strategy of promoting innovation and entrepreneurship at all levels, we strongly supported the "Students Innovators 2019" competition of the University Of Cyprus. Aspiring UCY students had the opportunity to present their creative ideas and innovative solutions in front of a panel of judges within a 5-minute "pitch". IDEA offered a great prize for the competition: The participation in IDEA's annual field trip to Israel at the DLD Innovation festival, covering the expenses.
